Ubuntu

"The Belief that we are define by our Kindness and compassion towards others"

Ubuntu literally means humanity towards others - it's an African philosophy that permeates this country where all of us live.

No-one has a choice but to fight and get involved because every one of us personally knows someone who is hungry. There's nothing more sobering than a close-up view of people suffering in our country. We really need to pay attention because millions of people are on the brink of food insecurity. Ubuntu is an initiative by Inali Foundation to create a platform where people can connect with each other and share the right information which may save some lives.

The spirit of 'ubuntu' is what we need to fight COVID-19

Our Mission:

The entire country is burning without oxygen; let's make sure no one dies out of Hunger.

What Information Ubuntu share:

1. Kids Lost Parents due to Covid-19
2. Elderly who lost kids and are left alone
3. Pregnant ladies who lost husband and need support
4. People looking for meals
5. Plasma Donors
6. Medication
7. People who need shelter
8. Oxygen Suppliers
9. Bed Suppliers
10. Last Ritual supports

We need you:

Ubuntu is calling makers, developers from across the globe and help us to make a difference. If you are a maker, developer and want to get involved jump in the #Ubuntuchallenge
